

MLC YACHTING MONACO

ENGINEERED EXPERTISE. INDEPENDENT ADVICE

INDEPENDENT TECHNICAL CONSULTANCY · MONACO

Technical Yacht Management

Structured technical support for reliable yachts, controlled refits and long-term asset care.

WHY TECHNICAL MANAGEMENT MATTERS

A yacht's technical condition directly affects reliability, asset value, charter continuity and the owner's experience. Captains and crews are often required to evaluate, plan and supervise complex maintenance while managing demanding operational workloads. A structured technical-management framework brings the planning, documentation and specialist support needed to reduce inefficiencies and avoid preventable disruption.

OUR VISION

A reliable yacht operation starts with robust technical management.

MLC Yachting Monaco works alongside the Captain, crew, Flag State, Classification Society and Client's office to understand onboard systems, operational requirements and cruising plans, then establish a dependable preventive-maintenance and survey strategy.

A PRACTICAL MANAGEMENT FRAMEWORK

ASSESS

Review yacht condition, systems, maintenance status and existing processes.

PLAN

Align maintenance, surveys, refits, budgets and cruising requirements.

SUPPORT

Provide technical follow-up, yard supervision and specialist assistance as required.

TECHNICAL YACHT MANAGEMENT

Technical management services

YACHT CONDITION ASSESSMENT

Initial technical survey, followed by periodic condition reviews to establish priorities and track the yacht's technical status.

PLANNED MAINTENANCE SYSTEM (PMS)

Review of the existing PMS and/or implementation of a customized PMS and software solution, with continuous monitoring.

LONG-TERM MAINTENANCE & REFIT PLANNING

Preliminary 5–10-year planning to coordinate major maintenance and refits with charter and cruising schedules, including budget visibility.

YARD SPECIFICATIONS & REFIT BUDGETS

Structured forms and procedures to collect technical data and develop professional yard specifications and refit budgets.

YARD SUPERVISION & PROJECT MANAGEMENT

Yard supervision and, when required, on-site project management to organize, coordinate and follow maintenance works and refits.

TECHNICAL SUPPORT, CLASS & FLAG SURVEYS

Support for maintenance schedules and technical defects, plus coordination of Class and Flag surveys with refit works and charter commitments.

EXPERIENCE BEHIND THE SERVICE

MLC Yachting was founded by Marco Lo Cicero, whose maritime career began in 1998 and has included Chief Engineer, Deck Officer, Captain, DPA/CSO, Technical Manager and Project Manager roles. This broad onboard and shore-based experience supports a practical understanding of yacht operations, technical maintenance and client requirements.

- CHIEF ENGINEER
- DECK OFFICER
